 - *Math: Workplace and Apprenticeship 20 (6423)
 - *Math: Workplace and Apprenticeship 20 (6423) year long
 - *Math: Workplace and Apprenticeship 30 (8423)

Advanced Media Production & Content Creation – Student Fees \$35 This class focuses on digital media creation with a focus on social media advertising and marketing. While industry changes, we will learn how to become employable as social media content creators. Using video, photography, and digital audio devices, we will study what it takes in the world of content creators as a career. While using the industry standard programs within the Adobe Creative Suite, the course will create for platforms such as TikTok, YouTube, Instagram Reels, and many more. The course is paired with an ELA credit where students will apply their skills to writing proposals, pitching projects, planning campaigns, writing scripts, jingles, and podcasts.

Semester 1

- Communication Media 20 (7015)
 - Communication Media 30 (9015)
- and
- *English 20 (6017)
 - *English A30 (8017)
 - *English B30 (8018)

Engineering – Student Fees \$35 Engineering involves the application of math and science combined with art and creativity to come up with solutions to many of the world’s problems. If you enjoy solving problems or knowing how things work and have an aptitude for math and science, then consider Engineering. This course will introduce you to the design process and develop your technical design skills. It will introduce you to industry-standard design software as well as provide experience with the latest prototype devices such as 3D printers.

Fire Science & First Responder – Student Fees \$55 The Fire Science program focuses on knowledge and experiences for students interested in becoming firefighters or primary care paramedics. Students achieve their academic outcomes through a focus on the chemistry involved in fire behavior. The course also provides experience and instruction in preparation for the physical demands of the career. Students learn about a variety of firefighter career pathways with the assistance of partnerships with Regina Fire and Protective Services and Parkland Fire College. Students also get the opportunity to achieve the highest level of First Aid certification.
