The program is for four hours a day, for one semester. Students will work alongside teachers and knowledge keepers to prepare hides, study plants, speak nêhiyawêwin, and obtain skills in bridging Indigenous knowledge and Western science such as water testing. Outdoor experiences include hiking, snowshoeing, canoeing, fire making, setting up camp, building shelters, whittling, fishing, and preparing foods and medicine. It is recommended that students take their ELA classes in period 1 at their home school.</p> <p>**Note: this class takes place in the morning and afternoon at CRP. Students will take the morning CRP bus and return to their home school on the afternoon CRP bus.</p>
<input type="checkbox"/> *Computer Science 20 (6702) requires Science 10 <input type="checkbox"/> *Computer Science 30 (8702) requires Computer Science 20 and <input type="checkbox"/> Communication Media 20 (7015) <input type="checkbox"/> Communication Media 30 (9015)	<p>Video Game Design – Student Fees \$20: The games industry is a rapidly growing industry, currently worth more than all other entertainment industries put together, and there is always a need for creative and technical creators to help bring new experiences to players. Practice core skills such as coding, logical reasoning, 3D art, music, design theory, and project management as you build different prototypes and projects. Students will complete the course with a portfolio of work that will help achieve success either as an independent developer or as part of a larger team.</p> <p><input type="checkbox"/> I have taken Video Game Design (level 2)</p>

If you enjoy solving problems or knowing how things work and have an aptitude for math and science, then consider Engineering. This course will introduce you to the design process and develop your technical design skills. It will introduce you to industry-standard design software and provide experience with the latest prototype devices such as 3D printers.</p> <p>**Sask. Poly Credit is only available in semester 2</p>
<ul style="list-style-type: none"> <input type="checkbox"/> Economics 20 (2140) <input type="checkbox"/> Economics 30 (3140) <p>and</p> <ul style="list-style-type: none"> <input type="checkbox"/> Financial Literacy 20 (7045) <input type="checkbox"/> Financial Literacy 30 (9045) 	<p>Financial Literacy and BITCOIN Economics – Student Fees \$20: Following the financial meltdown of 2008, Bitcoin was started in 2009 as an attempt at a decentralized digital currency that cannot be controlled by individuals or agencies. It began as a discussion in online chatrooms between cypherpunks and computer programming enthusiasts. Since then, it has evolved and grown in its global adoption. Bitcoin is an attempt to apply Science, Technology, Engineering and Math to the design of money. If you want to learn about money, the economy and what Bitcoin is and how it fits in, then this is the course for you.</p>
<ul style="list-style-type: none"> <input type="checkbox"/> *Physical Science 20 (6247) requires Science 10 <input type="checkbox"/> *Chemistry 30 (8256) requires Physical Science 20 <p>and</p> <ul style="list-style-type: none"> <input type="checkbox"/> Physical Education 20 (6603) <input type="checkbox"/> Physical Education 30 (8603) <input type="checkbox"/> Personal Fitness 30L (8611) 	<p>Fire Science & First Responder – Student Fees \$60: The Fire Science program focuses on knowledge and experiences for students interested in becoming firefighters or primary care paramedics. Students achieve their academic outcomes through a focus on the chemistry involved in fire behavior. The course also provides experience and instruction in preparation for the physical demands of the career. Students learn about a variety of firefighter career pathways with the assistance of partnerships with Regina Fire and Protective Services and Parkland Fire College. Students also get the opportunity to achieve a BLS (Basic Life Support) First Aid certification.</p>
<ul style="list-style-type: none"> <input type="checkbox"/> *Health Science 20 (6245) requires Science 10 <input type="checkbox"/> Health Science 21 (6265) <input type="checkbox"/> *Biology 30 (8255) requires Health Science 20 or Env. Science 20 <p>and</p> <ul style="list-style-type: none"> <input type="checkbox"/> Psychology 20 (6340) <input type="checkbox"/> *Law 30 (8339) 	<p>Forensic Science – Student Fees \$50: Forensic Science is the application of science (Chemistry, Psychology, and Biology) to the criminal and civil laws enforced by police agencies in a criminal justice system. Our program includes investigating various analysis techniques through scenario-based activities and career partnerships. Students will learn about the various specializations (Forensic Psychology, Forensic Pathology, Forensic Investigation, etc.) and the post-secondary options for education. Students will learn about the nine areas of Forensic Science while earning their standard high school credits.</p>
<ul style="list-style-type: none"> <input type="checkbox"/> *Health Science 20 (6245) requires Science 10 <input type="checkbox"/> Health Science 21 (6265) <input type="checkbox"/> *Biology 30 (8255) requires Health Science 20 or Env.
